\* Note: Fully supported after Microsoft removes Internet Explorer on February 14, 2023

### WHY USE IE TAB?

- Run Legacy Web Apps**  
Sharepoint? ActiveX? Silverlight? Java? IE Tab runs them all in Chrome seamlessly and transparently, no more browser switching.
- Use IE Securely**  
Running old versions of IE is risky, but IE Tab can be locked down so it is only used on the sites that need it. Use Chrome with IE Tab as a guard against those Zero-Day IE bugs.
- GPO Deployment**  
Full support for Group Policy deployment. Set the URLs you need to open with IE Tab and deploy them with Group Policy.

The screenshot displays the homepage of the Uttar Pradesh Information Commission's Complaint and Appeal Tracking System. At the top, a red arrow points to the browser's address bar. The website header includes the RTI logo on the left, the title "Uttar Pradesh Information Commission Complaint and Appeal Tracking System" in the center, and the state emblem on the right. A navigation menu below the header lists: HOME, RIGHT TO INFORMATION ACT, U.P. RTI RULES, 2015, PRESS RELEASE, ANNUAL REPORTS, GALLERY, CONTACT US, HELPING DOCUMENTS, SURVEY, and FEEDBACK. The main content area features two sections: "Important Activities" on the left, which contains a link for "Guide for New Citizen Registration", and a "Login" form on the right. The login form includes input fields for "Your login id", "Your password", and "Enter Captcha", a captcha image showing the number "18619", a "Forgot Password?" link, and a "Login" button.
